emergencies, payment delinquencies, and other short-term cash flow problems. The cash budget goal of one and one-half the monthly operational expenses is suggested because many small sewer systems may not be able to quickly assemble their board of directors to deal with cash-flow problems. Until the governing board can be convened, the costs of operation would be covered. The use of a multi-year capital budget is a positive indicator of financial management and supports the assessment of financial capacity conditions. A capital budget is an indication that the system is aware of the need for financing infrastructure upgrade and/or replacement.

3. Explanation of ability to repay loan (User Rate Charge System and/or Ordinance) NOT REQUIRED FOR LIF OR EC APPLICANTS

4. Engineering Agreement NOT REQUIRED FOR LSL ONLY APPLICANTS

5. Repayment schedule(s) for any other loan(s)
