Mandatory Garbage Service

Comment Subject

NO! on compulsory Clear Creek contract

Please record your comment

The proposed Clear Creek franchise is not simply a contract allowing a private company to collect garbage in Bellevue. It would fundamentally change the relationship between residents by making participation compulsory.

..."with rates adjusted to recover the contractor's direct and indirect costs, including labor, equipment, processing, administration, capital investment and a "reasonable return." the structure, like nearly every choice made by the council, without citizen input is once one-sided.

Residents must participate, residents cannot choose another provider, residents must pay even if they do not receive the service, and additional services and costs may be added later.

YOU ARE SPPOSED TO BE REPRESENTING US!

Of the dozens of people I have told about this -yet another-debacle, not 1 resident is in favor.

Additionally, how can the council even think of approving the agreement when it's missing a Rate Schedule, and by the way is that exhibit A or B?

This item should not be approved!.

The proper process of anything we are expected to pay more for should be:

publish the complete agreement

publish the rates

resolve the contradictions

document the notice process

give the public time to review it

allow ample time for public comment

LISTEN TO US

This feels like yet another ploy by the mayor and her cronies to find a way for US to pay for their inabilities to manage finances properly.

And I am sick of it.

Signature

I agree that the facts stated in this submission are true, and upon changes I will provide notification as needed.

Electronically Signed
